

ENJOY TRULY ETHICAL COFFEE

www.ecobean.co.uk

Let's Talk Coffee

Specifically, Ecobean Coffee

There is a fine balance to strike between the need for increased coffee supply and the impact this has on the environment, we believe that one should not come at the cost of the other!

Ecobean delivers coffee that helps to maintain this delicate balance.

With our Zero Waste, Circular Economy Technology we can deliver you a fresh, delicious and ethical coffee that will also reduce your waste, cut your Carbon Footprint, improve your Corporate Social Responsibility and save you money!

Coffee Today

With coffee becoming an ever increasingly popular part of everyday business, it is equally important to choose the right coffee supplier to fit your business needs and ethics.

From the physical needs of your business to the Corporate Social Responsibility it has pledged to meet.

Ecobean Coffee is sure to deliver all your requirements whilst improving your CSR.

The Closed Loop System

We are the only commercial coffee roastery in the world that runs this unique closed loop system.

Used Coffee Grounds are collected from our customers, recycled it into energy rich bio-fuel which we use to produce the energy to roast fresh coffee. We then pack and return to the customer with fresh eco roasted coffee!

The cycle can then begin over again.

Quality Coffee

Our coffees are skillfully crafted by our master roasters operating our Eco Roasters. Whether they are roasting 5kg or 500kg, quality is at the top of their priorities.

We pride ourselves in the quality of our finished products. We know you will also love what we produce as much as how we produce it.

ECO ROAST
DELICIOUSLY RESPONSIBLE COFFEE

Used Coffee Grounds

With over 500,000 Tons of Used Coffee Grounds produced in the UK each year, it is essential that we divert as much from landfill as possible. This will reduce the levels of Methane & CO2 emissions created.

Turning it into biofuel is a great way to recycle this abundant resource.

UCG Collection

We have different ways for you to separate and store your UCG ready for collection and recycling

We have a growing UK network of partners who specialise in Used Coffee Grounds collection

We will work with you to secure the best method of collecting and storing your used coffee grounds.

Harnessing the power of Coffee

Once the Used Coffee Grounds have been reprocessed into Bio-Fuels, we can use this to produce the thermal energy we require to roast Deliciously Responsible Eco Roast Coffee.

Ethical Sourcing

As well as making sure the coffee we buy is of superior quality, it is equally important to us that we are sourcing our coffees ethically.

We have developed direct trade relationships with growers across the globe so that we can be assured of its quality and provenance. This also allows us to give back direct to the farmers, ensuring a fair relationship between us.

Ethical Packaging

We have super environmentally conscience packaging options.

One of our foodservice packaging options can be recycled in widely available paper recycling systems.

Our latest retail offering is also a compostable ziplock pouch, which will biodegrade once composted.

ZERO WASTE

To enable our customers to become truly ZERO Waste, we can offer a delivery and collection service that will allow our foodservice customers to receive their coffee in reusable “eco tubs” as well as grounds collection tubs too. Each time you have a fresh delivery, the used coffee is collected at the same time. Reducing our impact on the planet as well as your waste costs.

Coffee Blends

We have a comprehensive range of deliciously responsible coffee blends to choose from.

Each of our core blends has its own unique attribute to it as well as being Eco Roasted & Carbon Neutral.

High Caffeine – Direct Trade –
Fairtrade – Rainforest Alliance –
Triple Certified – Ethical Decaf –
Social Impact

Private Label Production

We have been producing private label coffee for a wide range of clients, large and small, throughout the UK.

We are equipped and confident that we can produce your coffee for you, just the way you want it.

Training & Support

Ensuring our clients are set up using Ecobean properly is key. We invest in our customers by offering continued training and support for their coffee offering.

Equipment Partners

Being specialists in all things coffee, it is important that we offer a professional coffee equipment solution for your business too.

To achieve this, we have a close working partnerships with reputable coffee equipment & service companies.

They will look after the supply, installation, maintenance and breakdown cover of your equipment.
